

HYDRO+

Supported by over 1,300 studies* Hydrogen water delivers proven wellness benefits: it fights inflammation, neutralizes harmful free radicals, acts as a powerful antioxidant (-ORP, Oxidant Reduction Potential), boosts energy and athletic performance, and so much more!

KEY FEATURES:

- ✓ **Clinically Supported** (backed by 1300+ studies)
- ✓ **Reverse Osmosis technology:** Filters out heavy metals, fluoride, and other harmful particles
- ✓ **Natural molecular hydrogen infusion:** Generates natural molecular hydrogen with antioxidant potential
- ✓ **Ceramic LED antimicrobial faucet:** Helps maintain hygiene by reducing bacterial buildup
- ✓ **Antimicrobial system** design ensures ongoing hygiene and safety
- ✓ **Anti-inflammatory & antioxidant support:** System is designed to reduce oxidative stress through water composition
- ✓ **Generates 75-GPD** (gallons a day) of pure, revitalizing hydration

CARBON (CTO)

- Reduces chlorine, bad taste, odors, and some vocs
- Further removes chlorine, chloramine, chemicals, pesticides, and vocs.
- Super capacity extruded coconut carbon block filter, 5 microns, for removal of chlorine, taste, odors, vocs, and organics.

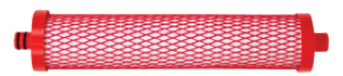

REVERSE OSMOSIS

- Filters out heavy metals (lead, arsenic, fluoride, chromium), nitrates, bacteria, viruses, microplastics.
- Dupond 75 gpd (gallons per day) encapsulated membrane 0.0001 micron filtration.
- 50% water recovery. Remove 98%+ of all water soluble contaminants.

ALKA + H2

- Raises PH to a healthy, balanced alkaline level (typically pH 8-9.5).
- ALK + H2 alkaline hydrogen water filter. Alkaline PH 9.5.
- Improved hydration.
- Antioxidant rich. Reduces inflammation and oxidative stress.

ANTIMICROBIAL

- Eliminates bacteria, virus, taste and odors parasites, mold, and cysts on contact
- Antibacterial, Antiviral, Antiparasitic
